

Flavita

INSPIRED BY NATURE DESIGNED FOR EVERY SEASON

SPRING

SUMMER

AUTUMN

WINTER

For more than 30 years, family-owned Domino Polska has been active in the interior design and furnishing sector, combining extensive market knowledge with the consistent development of its own brands. LAVITA was created from the belief that a well-designed bathroom should bring together aesthetics, functionality and everyday comfort. Closer relationships with customers, architects and business partners enable us to understand changing needs and translate them into carefully considered product solutions. The strength of LAVITA lies in its solid operational base: a dedicated

product, development team, multi-stage quality control and a modern logistics centre offering a total of 26,600 m² of warehouse space. The continued development and expansion of the complex enable efficient order fulfilment and ensure reliable service for partners throughout Europe and across international markets.

LAVITA offers a comprehensive portfolio for creating coherent bathroom interiors. Ceramics, bathroom furniture, bathtubs, fittings, shower enclosures, mirrors and accessories are designed to complement one another, allowing individual solutions to be combined within a consistent aesthetic. We continuously refine our collections by selecting durable materials, advanced technologies and solutions that genuinely improve everyday use. The result is a portfolio

that balances contemporary design with dependable quality, transforming the bathroom into a comfortable, functional and harmonious space – today and for years to come.

Sit comfortably, open and be inspired by

Lavita

AI The interior designs featured in this catalogue are conceptual visualisations generated using artificial intelligence. They do not depict interiors that have actually been realised. The colours, proportions and appearance of the products may differ from the actual items; the technical specifications and product samples available at www.lavita.pl and at our retail partners' showrooms are binding.

Lavita

SPRING

**FRESHNESS AND NATURALNESS
LIGHT. FRESH. NATURAL.**

Spring brings more light, delicate colours and nature coming back to life.

In the bathroom, this mood is created by light ceramics, subtle furniture finishes and the natural textures of wood.

Faucets and accessories in CHROME reflect the light, emphasising the freshness and lightness of the whole composition.

SUMMER

**LIGHT AND WARMTH BRIGHT.
WARM. FULL OF LIGHT.**

Summer means sunshine, sand and warm colours.

In the bathroom, this mood is reflected by warm shades of ceramics, beige furniture and natural wood finishes.

Faucets and accessories in BRUSHED GOLD introduce golden reflections and elegantly complete a palette inspired by summer light.

AUTUMN

**COLOUR AND TEXTURE DEEP.
WARM. EXPRESSIVE.**

Autumn brings the richest colours of nature – copper, browns, caramel and earthy tones.

In the bathroom, these are reflected by expressive wood textures, deeper furniture colours and coloured ceramics.

Faucets and accessories in BRUSHED COPPER emphasise the warmth of the composition and work beautifully with wood and natural earth inspired tones.

WINTER

**CONTRAST AND ELEGANCE COOL.
CALM. REFINED.**

Winter is white, grey, stone and the dark contours of nature.

In the bathroom, this aesthetic is created by white or darker ceramics, cool furniture finishes and stronger contrasts.

Faucets and accessories in GUNMETAL add depth and give the composition a modern, architectural character.

AUTUMN

WINTER

SMART BY LAVITA

**COMFORT TAILORED TO YOU
HYGIENE AT THE HIGHEST LEVEL**

A contemporary bathroom is a space where design, comfort and technology come together in perfect harmony. Every detail matters, while advanced solutions remain discreet, intuitive and entirely focused on the user's comfort. The toilets SMART by LAVITA have been designed for bathrooms where convenience becomes a natural part of everyday life. Refined design holds advanced technology developed to deliver comfort, hygiene and intuitive operation every day. Intelligent technology that brings together comfort, hygiene and refined functionality in the modern bathroom.

FIVE SIGNATURE FINISHES COUNTLESS POSSIBILITIES.

Colours in the bathroom goes far beyond the faucet. At LAVITA, it becomes part of a carefully considered system that connects the basin, bathing and shower zones within one consistent composition.

The LAVITA palette features five distinctive finishes: BRUSHED GOLD, BRUSHED COPPER, GUNMETAL, CHROME and MATT BLACK. The complete SPARK and ORION faucet collections have been developed in all five variants. Corresponding finishes also appear throughout the SENSO accessory collection and, depending on the model, across mirrors, linear drains, radiators and other bathroom elements.

This makes it possible to carry one selected finish throughout the interior – from faucets and shower fittings to the mirror frame, linear drain and smallest accessories. Individual elements no longer compete for attention. Instead, they work together to create a harmonious and coherent bathroom design

Lavita

YOUR BATHROOM. YOUR STYLE.

Furniture countertops

LAVITA countertops are an essential complement to the furniture range, making it possible to create a virtually unlimited number of solutions. They allow you to freely combine modules and combine furniture with countertop washbasins, obtaining hundreds of configurations. They are characterised by increased resistance to moisture. The countertops are available in many colours and sizes.
